

HIGHLUX & AUSLITE COVID SAFE

We wish our customer, suppliers, and industry colleagues, a safe lock down period.

OVERVIEW

Information in this document is sourced from [state](#) and [federal](#) government websites, [WorkSafe](#), and [Small Business Victoria](#). We are also informed for industry-specific information through the [Lighting Council of Australia](#).

HIGHLUX & AUSLITE design, manufacture and sell industrial-grade solar lighting solutions for public lighting and to councils & mines, and to the construction, conservation, tourism, education & health sectors.

STAGE 4 restrictions are in force. Under Stage 4, with “stay at home” orders, workplaces in metropolitan Melbourne are closed unless part of a permitted industry.

The permitted industry under which HIGHLUX & AUSLITE remain open is:

MANUFACTURING

Manufacturing to support critical infrastructure public works

Of our full staff complement of 9 people, 5 have been working from home since the 15th March. The four remaining persons have been physically in attendance in the office with restrictions. Three will continue in attendance in the office, with restrictions, as well as our COVID Safe plan as outlined in this document.

These four staff have been issued with permits.

STAFF WORKING FROM HOME

We are pleased to be able to continue operation to support our customers and enable staff to effectively work from home.

We will continue to monitor the advice on business operation from the Victorian Government and adjust working arrangements accordingly.

We communicate with staff working from home regularly with a “morning report” email, a weekly “job review” meeting, and “Friday drinks”, the latter two by Zoom.

STAFF ON SITE

We are in a unique position that we have premises large enough to accommodate the staff we need on site and maintain with ease social distancing restrictions.

Our production area is 10 x 4m area for two people. In the photo below is Seb & Nicco - our full COVID Safe production and logistics team.

Seb & Nicco are supplied with disposable masks, hand sanitiser, and have exclusive use of the one company vehicle to travel to and from the office to keep them from using public transport (Seb & Nicco are house mates).

Our “front of house” area is 10 x 7m, with 9x work-stations, currently only accommodating 1 to 2 people at any time. The two “front of house” staff are Mel & Tristan - our full COVID Safe operations and management team. Mel & Tristan are supplied with disposable masks, hand sanitiser, and have full use of the one company vehicle to travel to and from the office to keep them from using public transport. Mel & Tristan are also house mates.

Shared areas include the bathroom & kitchen which are cleaned each evening at close, and at least once during the day. We use 70% Isopropyl Alcohol.

We do not eat together. We do not leave food out to share.

Signage around the office for staff include:

- Washing your hands
- Using the hand sanitiser rub
- Being a COVID-Safe workplace
- How to wear your mask

NO ENTRY TO VISITORS & CONTACTLESS DELIVERY

Entry is not permitted to visitors or delivery staff to the building.

Delivery at the rear of the building are contactless. Trucks are able to enter the back of the building (via Harold Street). Seb and Nicco work with the back roller door open.

Face masks are to be worn by our staff and delivery staff.

There is a bell on the back door if no one is in attendance. A phone number to call too.

Deliveries to the front are instructed to come around the back via a laneway to the side of the building for contact less delivery.

“Staff Only, No entry” signage is at the front door, and the door remains locked.
